

EURO DELUXE 4V AQUA PROTECT NATURAL VARNISHED OAK 192 X 1261

Description

The Natural Varnished Oak floor is a warm yellowy beige colour with darker brown features such as grain lines and knots. It cleverly replicates the look of a real natural varnished oak floor and is a very popular option in the Vitality range.

The Vitality Deluxe collection is part of our entry-level range of laminates, although still great quality coming all the way from Belgium. All floors in the Vitality Deluxe range are 8mm thick with a V-groove on 4 sides. Decors have a brushed structure surface, which means the grain raises, and hollows are visible just like those on real wood floor.

- *8mm thick
- * 192mm wide x 1.261m length
- * 7 year Commercial Warranty / 20 year Residential Warranty
